Weiler[®]

TST[®]: Ingenuity

Coater

- High volume throughput waterfall coating
- Maximizes coverage to the right thickness while reducing excess waste

Batter Mixer

- Mix batter thoroughly without overworking prior to coating
- Performs well with lower viscosity batters

Breader

- Application of bread crumbs and other materials
- High throughput volume

made to order

Pre-Duster

- Apply a thin layer of flour
- Minimize waste and maximize worker safety through the use of the Cyclone Filter

Combi Dipper

- Apply high viscosity coatings such as tempura batters
- Consistent coating performance

Innovative height adjustment

Clear and easy operation

Focus on hygiene

Provisur® is your one-stop resource for technology solutions.

At Provisur we are continually innovating to find new ways to help our customers maximize the performance of their lines. New technology is always at the forefront. Our engineering and R&D teams are fully committed to deliver the best value equation. Our expertise is in designing and building advanced equipment and systems that promises operation efficiency, excellent product quality, flexible textures and shapes with higher throughput and uncompromising food safety.

About Provisur® Technologies

Provisur® Technologies, Inc., with a family of proven brands, AM2C®, Beehive®, Cashin®, Formax®, multitec™, TST™ and Weiler®, offers a complete platform for food processing equipment including integrated systems, grinding, mixing, separating, forming, coating, cooking, freezing, slicing and autoloading equipment for processing beef, poultry, pork, fish and other food products.
